

# Certificate in Childhood and Adolescent Disorders

This module introduces the learners to various childhood and adolescent disorders. It explores the different disorders that these groups face, which includes depression, anxiety, obsessive-compulsive disorder (OCD), and substance abuse. Special needs such as autism spectrum disorder and attention deficit hyperactivity disorder (ADHD) will also be discussed. Learners will be taught how to identify and differentiate between the various disorders, which is vital in helping individuals who are suffering from them.
